THE FOLLOWING QUESTION WAS SUBMITTED AS A RESULT OF THIS RFQ:

1. What is required of the Third Party Administrator (TPA)?

Answer: The TPA will be responsible for all MRO services related to the drug testing under 49 CFR part 40 and 655, as amended and where applicable. This includes but not limited to lab testing of specimens, MRO services, and administration of all results to the drug and alcohol program manager/designated employer representative. The collection process will be through a local occupational clinic, with specimens shipped to the laboratory of the TPA, preferably an in-network provider. The TPA should have a robust, user friendly web-based portal for access to all information related to the process, to ensure compliance with all DOT regulations regarding drug and alcohol testing. The TPA will also administer random selection pool for all DOT and Non-DOT random testing (i.e., provide random lists on a scheduled basis).
